FRAME

Adrenaline - G2 Carbon. Concept Lite Frame. High Modulus Carbon Fiber. Monocoque. TA 12mm. Fully Internal Cable Routing. Flat Mount. E+ Compatible. Press Fit. Head Tube 1.5

FORK

Adrenaline - G2 Carbon Concept Lite Fork. TA 12mm

REAR DERAILLEUR

Shimano Ultegra Di2 R8150 12V

FRONT DERAILLEUR

Shimano Ultegra Di2 R8150 12V

BRAKES

Shimano Ultegra Di2 R8150 12V

CRANKSET

Shimano Ultegra Di2 R8150 52-36T 12V

CASSETTE

Shimano Ultegra Di2 R8150 11-34T 12V

CHAIN

Shimano M7100

WHEELS

Vision SC45

TYRES

Hutchinson Blackbird 28 TLR

HANDLEBAR

Vision Metron 5D EVO

SEATPOST

FSA SL-K

SADDLE

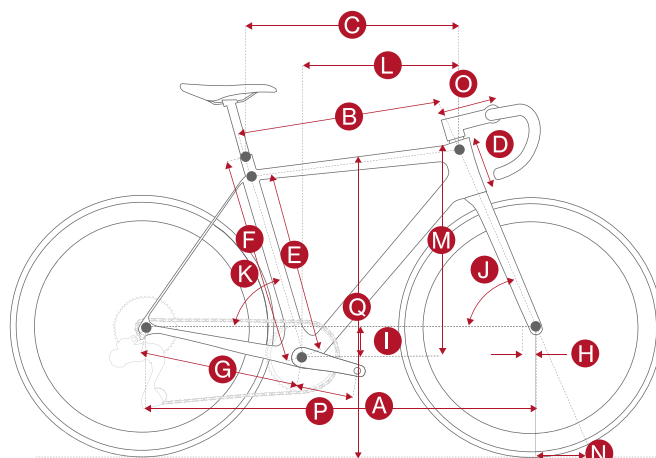

Selle Italia SLR Boost Kit Carbon Superflow

Geometry and sizes

G2 PERFORMANCE GEOMETRIES

Morphological and ergonomic studies are the basis for the design of our geometries. In the G2, we look for a posture that helps the user to be competitive while riding comfortably for many hours in the saddle.

Applied to bikes like the Adrenaline, the High Performance Geometry will allow you to be competitive in that Gran Fondo you have marked on your calendar or to be able to arrive home strong after a long day spent with your partner in fatigue.
